

exercício 8

a) Cálculo do lado c

lei dos cossenos ou 4 elementos relativa a lados

$$\cos c = (\cos b \cos a) + (\operatorname{sen} b \operatorname{sen} a \cos C)$$

| a | | | b | | | c | | |
|----|----|----|----|----|----|----|----|----|
| o | ' | " | o | ' | " | o | ' | " |
| 78 | 12 | 52 | 50 | 31 | 18 | 81 | 48 | 40 |

| c | | |
|----|----|----|
| o | ' | " |
| 76 | 15 | 43 |

b) Cálculo do ângulo B

Fórmula das cotangentes

$$\operatorname{sen} a \operatorname{cotg} b = \operatorname{sen} C \operatorname{cotg} B + \cos a \cos C$$

$$\operatorname{cotg} B = \frac{\operatorname{sen} a \operatorname{cotg} b - \cos a \cos C}{\operatorname{sen} C}$$

$$\operatorname{tg} B = \frac{\operatorname{sen} C}{\operatorname{sen} a \operatorname{cotg} b - \cos a \cos C}$$

| A | | | B | | | C | | |
|----|----|----|----|----|----|----|----|----|
| o | ' | " | o | ' | " | o | ' | " |
| 78 | 12 | 52 | 50 | 31 | 18 | 81 | 48 | 40 |

| B | | |
|----|----|----|
| o | ' | " |
| 51 | 51 | 33 |

c) Cálculo do ângulo A

Fórmula das cotangentes

$$\operatorname{sen} b \operatorname{cotg} a = \operatorname{sen} C \operatorname{cotg} A + \cos b \cos C$$

$$\operatorname{cotg} A = \frac{\operatorname{sen} b \operatorname{cotg} a - \cos b \cos C}{\operatorname{sen} C}$$

$$\operatorname{tg} A = \frac{\operatorname{sen} C}{\operatorname{sen} b \operatorname{cotg} a - \cos b \cos C}$$

| a | | | b | | | c | | |
|----|----|----|----|----|----|----|----|----|
| o | ' | " | o | ' | " | o | ' | " |
| 78 | 12 | 52 | 50 | 31 | 18 | 81 | 48 | 40 |

| A | | |
|----|----|----|
| o | ' | " |
| 85 | 55 | 36 |
